## APPENDIX D.

## LIST OF ASTRONOMICALLY FIXED STATIONS.

In offering this List of Astronomically Fixed Stations, made solely on this expedition, I wish it to be understood that the results in Latitudes and Longitudes are reductions, or rather recalculations, which have been made by Mr. E. Dunkin, Computer to the Royal Observatory, Greenwich, from my crude Observations, as it is the best security that I can produce for their accuracy. My sextants were 8-inch.

J. H. SPEKE.
