

Malpas, R., 1980. Wildlife in Uganda 1980, a survey. Report, pp. 1-118

White Rhinoceros

This is Otze Forest White Rhino Sanctuary. Not visited, numbers of *Ceratotherium simum* very small.

This is Mt. Kei White Rhino Sanctuary. Not visited, numbers of *Ceratotherium simum* very small.

In 1961 and 1964 some *Ceratotherium simum* were translocated from West Nile. 21 rhino were moved to the Buligi region of Kabalega. In 1977-78 survey there were 17 animals. In 1980 ground survey by Malpas, none observed; also no black rhino.

The last rhino was shot about a year ago. In 1961 there were ca. 60 animals.
