Rhino Conservation Calendar

The International Rhino Keeper Association (IRKA) is dedicated to sharing knowledge related to the five species of rhinoceros. Information gained through experience in captive management and studies in the field are viewed as critical to the rhinoceros' survival. To this end, the IRKA conducts the Rhino Keeper Workshop every two years to learn and discuss the most up-to-date information in the fields of rhino biology, management, nutrition, and training. This is a membership based organization that strives to both serve its members as they work to become the best care takers and managers of the rhinos in their care and depends on them to participate in the association's interests and growth.

For more information, please visit
www.rhinokeeperassociation.org.

The International Rhino Foundation (IRF) is dedicated to the survival of the world's rhino species through conservation and research.

For more information about the
IRF please visit their website at
www.rhinos.org.

The 2013 Rhino Conservation Calendar was assembled & edited by Sara Wunder Steward.

The International Rhino Keeper Association (IRKA) & the International Rhino Foundation (IRF) produced the 2013 Rhino Conservation Calendar with pictures submitted by rhino supporters from around the world! The calendar is the IRKA's endeavor as an organization to actively participate in an in-situ rhino conservation project through the IRF. As of August 2011, over 339 rhinos have been poached in South Africa, with predictions that rhinos could go extinct in 25 years if they are not protected!

The sale of the 2013 Rhino Conservation Calendar will assist the Rhino Foundation of Indonesia (Yayasan Badak Indonesia or YABI). YABI oversees the management of the Sumatran Rhino Sanctuary (SRS) in Sumatra, a captive breeding program for the species. The funds raised will assist in covering the core costs of the SRS: staff salaries, vehicle running costs, keeper & veterinary costs, veterinary supplies, non-browse nutritional supplements, & facility maintenance.

The SRS is a 250-acre complex located within Way Kambas National Park in Sumatra. At the SRS, the rhinos reside in large, open areas where they experience a natural rainforest habitat while still receiving state of the art veterinary care & nutrition. Four adult rhinos are part of an intensively managed research & breeding program aimed at increasing our knowledge about the Sumatran rhino with the ultimate aim of increasing the population in the wild. On June 23, 2012, the first baby was born at the SRS, a male named Andatu. (See the calendar cover & January.)

Don't forget to order your 2014 Rhino Conservation Calendar!

The International Rhino Foundation would like to thank Busch Gardens Tampa Bay and the Oklahoma City Zoo for their generous support, which made it possible to produce the Rhino Conservation Calendar.

100% of the proceeds from the sale of this calendar will go towards rhino conservation.

Professional custom calendars for large and small businesses, government, not for profits and municipal recycling programs.
