Abstract. This contribution contains additions and corrections associated with the Bibliography of Colin Peter Groves published in the present journal in 2018 (ROOKMAAKER & ROBOVSKÝ 2018).

Key words. Taxonomy, bibliography, biography.

INTRODUCTION

We provide one correction and several additions and updates to the Bibliography of Colin Peter GROVES published in the present journal (ROOKMAAKER & ROBOVSKÝ 2018), specifically up to 1 December 2020.

In the introduction of our original bibliography, we mentioned an erroneous medical diagnosis of Colin's disease. It was unethical to mention any diagnosis at all. We sincerely apologize to Phyllis GROVES and all other injured readers for our inadvertent but next to inexcusable mistake.

We found four missing publications dated in 1984, 1989, 2001, and 2018, and several papers (containing one species description) published since 2018; updates of entries in preparation are specified, when they are available. The original bibliography with present updates has 791 entries. The structure below follows the structure of the original bibliography.

As we mentioned some major obituaries in the original bibliography, we would also add two obituaries published since 2018, viz. by PILBROW & RYLANDS (2019) and BEHIE (2020).

ADDITION TO THE LIST OF TAXA DESCRIBED BY COLIN GROVES

Species group name: *Tarsius niemitzi* Shekelle, Groves, Maryanto, Mittermeier, Salim et Springer, 2019
(Primates: Tarsiidae)
