NEWSLETTER #66 MARCH 2022

Dear colleagues and friends,

This is the 66th issue of the quarterly e-newsletter of the Rhino Resource Center. Edited by Dr Kees Rookmaaker.

The total number of references in the collection of the RRC now stands at **25,842**. This is an increase of 187 items in the last quarter. Over 25,000 references are **available** as PDF on the RRC website.

**SUPPORT the RRC
CLICK ON RHINO**

A SLIMMED DOWN NEWSLETTER

Due to hospitalisation of the chief editor, this is a short newsletter. I have only included the literature as added to the RRC in the last quarter. However, for once, I have included all added references, also those before 2000, which shows the enormous breath of the contents of the website.

IN THIS ISSUE:

Pachyderm – call for papers	p. 3
Diard and Duvaucel – Drawings	p. 2
New Literature	
General	p. 6
Asian	p. 10
African	p. 7
Fossil	p. 13
Contact Information	p. 16

The Rhino Resource Center is a Charity (Registered KvK Utrecht 30185802)

Board Members: Tineke van Strien, Marjolein van Trigt,
Dr. Kees Rookmaaker, Dr. Edgar Turner

Founding Chairman: Dr. Nico J. van Strien
Past Board Members: Esmond Bradley Martin, Dr. R.P.W. Visser

OUR EXECUTIVE TEAM

Director and Chief Editor: Kees Rookmaaker
Database Maintenance & Web Design: Willem J. van Strien

SPECIALIST EDITORS:

Emmanuel Billia (Italy) Dan Ziegler (USA)
Jim Monson (France) Athanassios Athanassiou (Greece)

Call for papers

PACHYDERM is a journal dedicated to elephants and rhinos. It is a great venue to publish papers about researches and experiences in the field. There are a variety of options for submissions depending on length and subject.

ALL MAJOR PAPERS ARE PEER-REVIEWED.

PACHYDERM is **PLATINUM OPEN ACCESS**
NO CHARGES for authors or readers

Wherever your place of work, whatever your preferred subject, PACHYDERM will help you to get published.

Review our guidelines and then
SUBMIT YOUR PAPER OR FIELD NOTE TODAY

[PACHYDERM AUTHOR GUIDELINES](#)

Don't hesitate, we have a friendly team of editors, who want to hear from you today.

PACHYDERM – WE WELCOME SUBMISSIONS

Diard & Duvaucel: French Natural History Drawings of Singapore and Southeast Asia (1818-1820)

This book of drawings was launched in Singapore on 12 November 2021

Access the video of the event [here](#)

There are 120 drawings of various animals and a few plants. Mostly birds of the region.

The captions to the drawings were researched and written by KEES ROOKMAAKER

In the 1800s, two French naturalists named Pierre-Médard Diard and Alfred Duvaucel travelled to Singapore and other parts of Southeast Asia to collect and study the local flora and fauna. Knowing that it was important to supplement the specimens they sent back to scientists in Europe with sketches, Diard and Duvaucel commissioned artists to create hundreds of drawings of animals and plants at each of the locations they visited. Today, the Muséum National d'Histoire Naturelle in Paris houses 120 of these drawings, and the entire collection has been digitised and transferred to Singapore's National Library for safekeeping. Diard & Duvaucel is an initiative between the Embassy of France in Singapore and the National Library to celebrate the deep ties between France and Singapore, as well as the regional biodiversity. The stunning illustrations are accompanied by essays and captions written by curators and scientists.

ISBN: 9789814984072. Hardcover. 188 pages.

Size: 280mm x 260mm.

OUR SPONSORS

The board and staff of the Rhino Resource Center gratefully acknowledge the support of our main sponsors:

SOS RHINO

INTERNATIONAL RHINO FOUNDATION

SAVE THE RHINO

rhinocarhire.com

RHINO CARHIRE

We are grateful to all individuals who show their appreciation by their donation.
Thank you very much.

*The Rhino Resource Center is a registered charity.
We need your assistance to provide our service to all rhino lovers worldwide.*

DONATIONS TO THE RRC

It is really very easy. No problem to the audience of the RRC. To show appreciation of our work and to make future contents even better, a small donation goes a long way. Visits to libraries are no longer necessary, just think of the expensive time gained and research results improved. The button leads to a page with instructions.

[DONATE HERE](#)

The Rhino Resource Center is an essential tool for

- 👉 Information and image supply to media
- 👉 Academic research in biology, conservation studies, art history
- 👉 Education in primary, secondary and tertiary levels
- 👉 Conservation of rhinos both *in-situ* and *ex-situ*
- 👉 Latest information supply of all rhino-related projects
- 👉 Information on all the latest conservation efforts
- 👉 All the historical and most current literature.

YES, YOU CAN HELP:

- 👉 Authors of books, papers and reports can send us a copy after publication.
- 👉 We are always looking for images of all rhinos in books and in the wild
- 👉 We aim to include a picture of every rhino ever kept in captivity
- 👉 Contribute a message to our blog and get into contact with others
- 👉 Place a link on your website to the RRC which will be reciprocated
- 👉 Give us a DONATION when you feel the RRC has helped your work.

NEW LITERATURE

(finalized 24 March 2022)

In this quarter (September to November 2021), we have added 187 new references, to bring the total number of items in the database to **25,842**.

Below I have listed all new entries in four categories: General (all species), African rhinos, Asian rhinos and Fossil rhinos.

Most additions are available on the website.

Search for them on the RRC, it's easy.

Always check the [RRC website](#) first, many papers are available there.

Rhino Resource Center
Dr Kees Rookmaaker - Email: rhinorrc [at] gmail.com

Dr Kees Rookmaaker has actively worked on the biology and history of the rhinoceros for 50 years. He is a member of the IUCN-SSC Asian Rhino Specialist Group, and advisor to the EAZA Rhino TAG and to the International Rhino Foundation. He is the editor of the rhino section of *Pachyderm*. Author of eight books on African and Asian exploration and on the rhinoceros, as well nearly 250 shorter publications, many in peer-reviewed journals. Until 2015, he worked as a Senior Research Fellow on [Darwin Online](#) and [Wallace Online](#) at the National University of Singapore. He was Secretary of the International Commission on Zoological Nomenclature (ICZN) for a short period in 2015. The Society for the History of Natural History awarded him their Founder's Medal, and he served in the Council for several years.
