COMMUNIQUE

AMERICAN ZOO AND AQUARIUM ASSOCIATION

NOVEMBER 1997

COMMUNIQUÉ

editorial staff

Editor/Advertising Director Barbara Ray
Associate Editor Robert Reid
Production Assistant Joyce Wolen
Membership Coordinator Colleen Blon

editorial policy

Communiqué is mailed during the first week of the month. Please keep the AZA Membership Coordinator advised of address and position changes as soon as possible to ensure efficient and timely delivery. "Position Wanted" ads are a free, one time per year, service to individual members seeking employment.

All typed or printed information must be received at the **Office of Membership Services** by the 12th of the month preceding publication (faxed information must be sent by the 11th), unless otherwise notified. If such dates fall on a weekend or a holiday, the deadline will be the preceding workday. No phone insertions. Photos should be included when appropriate. Because publication space is limited, we urge you to submit your material on a timely basis rather than semiannually or annually.

Please put the OMS on your mailing list to receive all staff announcements, telephone/fax number changes and all other pertinent information.

Office of Membership Services
Oglebay Park
Wheeling, West Virginia 26003-1698
(304) 242-2160; (304) 242-2283 (FAX)

Executive Office and Conservation Center

advertising policy

Advertising is restricted to our commercial and institutional members. AZA reserves the right to refuse advertising copy not consistent with its purpose in conservation and education. Advertising contracts are issued on a calendar year basis and ads are accepted on a one, three, four, six, nine, or twelve time basis. Rates and mechanical requirements are available upon request. The deadline for advertising copy is the 10th of the month preceding publication. The artwork for publication must be camera-ready.

Communiqué is published monthly by the American Zoo and Aquarium Association, a nonprofit, tax-exempt organization dedicated to the advancement of zoological parks and aquariums for conservation, education, scientific studies, and recreation. Issued to members as a free service; not available on a subscription basis. Membership information available upon request.

table of

Cover Photo: Sometimes a zoo veterinarian has to pitch in for some unusual tasks, such as weighing a baby rhino. Dr. Eric Miller, Director of Animal Health and Research at the St. Louis Zoo, is pictured here weighing in with a black rhino calf during a neonatal exam. *Photo by Eric Miller.*

Because we care, we have used recycled paper in this publication.
