Significant Births at Memphis Zoo Reported

Two notable births have occurred recently at the Memphis Zoo. A female Southern white rhino was born on 30 September 1996. The calf is being raised on exhibit with its mother. This is the sixth rhino born at the zoo. A black-footed penguin chick hatched in mid-October 1996. It is the first successful birth of a chick from this set of parents in the last several years. It is the 19th penguin chick born at the zoo. *J. Coleman*
