

22. A month-old White rhinoceros *Ceratotherium simum* born at Whipsnade Zoo in January 1973. This was the first birth of this species in Europe to be conceived in captivity. Whipsnade has 24 White rhinos, one of the largest herds outside Africa. Three young were born in two years. *Michael Lyster: The Zoological Society of London.*

23. African python *Python sebae* hatching at Transvaal Snake Park after artificial incubation. Its egg tooth is still visible. The eggs of a second clutch were dotted with a felt marking pen but subsequently developed mould beneath these points.
